## ALL SORTS OF ITEMS.

John Crozier, Toronto Sunday school treasurer, absconded with the collection for the poor.

Bishop Chatard of Indians deposed Father Fitzpatrick of Evansville, in consequence of a quarrel between the priest and the congregation. Father Fitzpatrick has now sued the bishop for \$35,000 damages.

A story of a sea serpent that makes a loud, whistling noise may be expected from the Pacific. An automatic buoy, which is made by the action of the waves to give out such a sound, has gone adrift from the mouth of San Francisco harbor.

The iron horse speeds over 3800 more miles of railroad than it did a year ago. In Kansas more new track was laid than in any other state—498 miles; Minnesota, Iowa and Dakota are next. That the construction is largely greater than in any year since 1872 is a sign of the times.

A German farmer at Medville, Pa., was caught by his wife in a flirtation with a widow neighbor. She thereupon made his home too hot for him, and when he sought consolation from the widow, the latter brought a suit for slander. Thus disbarred by both women the distracted man hung himself.

They have an amateur actress like this at Richmond, Va.: "Symmetrical in form and Ionic rather than Corinthian in order, midway between Janus and Mary Anderson, with more fixed and substantial beauty than either, Miss Herndon is the bear ideal, the very embodiment of tragedy."

A tramp asked for a meal at a residence in Columbus, Ohio. The head of the family said: "Get along or I will set the dog on you." Then the tramp bet that within five minutes he would be invited to eat of the best that the house afforded. He won too, because he proved that he was a wandering son returned.

The Lower Po in Italy is covered with floating ice, and is expected to be frozen over as in 1839 and 1857. In southern Italy on the Benevento and Foglia railway, the trains have been delayed by snow, and by the last advice a train which started from Foglia had to turn back.

The Star Club of Boston has been broken up by the police and fifteen of the members fined each. Their offence was playing poker on Sunday; but they could have played had they been wealthy men instead of poor young fellows, whose Club was so humble that the rent of its room was only 60 cents a week, and the dues five cents per member.

The Word "Sododont," which has already become a household word, is derived from the Greek, and is composed of two words, *Sos* and *Odontos*. "Sos" translated, means to preserve, and "Odontos" the teeth—"SODODONT" a preserver of the teeth. And it is true to its name.

It beautifies and preserves the teeth, hardens and invigorates the gums, and corrects all imperfections of the breath. The odor of this pure preparation is so delightful that it is a luxury to apply it. It is as harmless as water. Sold by druggists and perfumers. James Odom, New York.

Mothers should not be without it for their infants. A few drops in a little warm water to swab a tooth baby's mouth will instantly relieve the little sufferer. The medicine is not narcotic, and is very pleasant. Sold by all druggists. dec10

### EDITORIAL NOTES.

The most remarkable trial ever begun in the United States is that of the Rev. Mr. Hayden, at New Haven, Conn. He is charged with the murder of a young girl named Mary Stannard, whom he is accused of having seduced. The trial of the case has already occupied the attention of the court for months, and is likely to last through the greater portion of this year. The prosecution and the defense are both being conducted at enormous expense, and the best legal talent is employed on both sides. The testimony taken in the trial daily occupies several columns of the leading New York papers.

Some of the unsuccessful competitors for the Round-Union's prize of \$50 for the best Christmas story have been severely criticizing the winning story, written by Mr. Hayden, late of the GAZETTE. Such adverse criticism is to be expected, but all disinterested persons who have read John Sheridan's "Mistake" unite in pronouncing it good. As for Mr. Hayden, he is now distinction fairly, has received his \$50, and good naturedly lights his pipe with the printed criticism of his unhappy rivals.

It was lately announced that a process for making real diamonds had been proved practicable. But the best authorities in such matters have contradicted the statement. One effect of the discussion was to bring out the fact that the ruby is now worth more than the diamond, weight for weight. This is owing to the greater scarcity of the ruby. Still, the last named gem is not fashionable, and never was popular.

An English doctor says that raisins are a good substitute for alcoholic stimulants. When he feels tired, he eats a few raisins or some brandied cherries. He says that on a long tramp, or during long and severe exercise of any kind, a man is much better for eating something every two hours.

We hope to see the time when the raisin box will supplant the whisky jug in the outfit of hunting and fishing expeditions.

Seward took a trip around the world and, when he came back, wrote a very interesting and instructive book. Gen. Grant has made a bigger trip, had better opportunities and been longer abroad, but Grant's book has not yet been announced. Yet some people, including Grant, believe "the necessity for his nomination for third term may yet arise."

The Maine legislature was organized with the members Garcelon declared elected in their state. The legislature will now act upon the application of the Republican members to be put into their positions. If they are refused, the question will go to the President. There is no danger of this.

Why it pays business men to advertise is well explained by the New York Sun: "They get the benefit of the power of advertisement, one of the greatest powers possessed by a newspaper, and by frequent repetition can fix their names and their business in the memories of the public."

Men and women have been said to die of sudden emotion, and now it is reported in Rochester, New York, a locomotive railroad train for the first time was overcome with fright that it dropped dead.

If the wind does occasionally howl and the snow blow in one's face sometimes in Nevada, it but gives variety to the climate. Any change is better than the deserts monotony of the climate in the California valleys.

The General Grant's Hippodrome did not include New York in its route. Probably he will take that city just in time to start the grand boom which is to secure his nomination.

The Carson Tribune says: "By the election of Garfield the U. S. Senate gains a member of giant intellect, as well as one of the readiest debaters in the land. He is head and ears over the demagogues Thurman, Tracy and Douglass."

John B. Owen has finished his engagement in San Francisco. He ought to keep him here as he goes east. He is one of the best comedians of the stage.

There is danger of overworking Mr. Sharpe," the telegraph says Senator

Sharon took his seat on the 7th for the first time since last March.

The water commissioners of San Francisco have appraised Lake Merced at \$1,500,000. The Call dubs it "the frog pond."

General Babcock met Grant at the depot on his arrival at Washington and was a conspicuous guest at the Grant dinner in Philadelphia.

Gov. Perkins gave his inaugural address to the legislature yesterday. It is the longest for years and is very creditable.

The Regan bill will be brought before the House Committee next Tuesday.

The Bodie Free Press is now a morning paper and a very good one.

### PACIFIC COAST ITEMS.

Sleighing is good out in Sierra Valley.

The snow is two feet deep at Salt Lake City.

Three inches of ice at Aptos, Santa Cruz county, last week.

Hydraulic Mining is almost at a standstill in Calaveras for the present.

In Bodie there has not been a case of pneumonia in the last six weeks.

A thief in Virginia City, robbed Mrs. Whyland, yesterday on the street in broad daylight.

The aggregate of violent deaths in San Francisco for 1879 was 281, of which 22 were suicides.

A three-year-old blue gum tree, cut down in Napa City recently, measured ten feet in circumference at the base.

Rabbits were never so scarce in Carson valley, and it is thought many of them perished in the late severe weather.

Bodie's little girls are as expert at coasting as boys, and after night fall some girls of a larger growth take a spin down the hill.

Dear Lodge, Montana, takes the oboe. The thermometer crawled to 51 degrees below at that place during the recent cold snap.

Prof. Rutan, the blind music teacher, has commenced a suit against Milton Kelley, editor of the Idaho Statesman, for defamation of character. Rutan claims \$20,000 damages.

It is thought that Pritchard, the condemned murderer in the Ormaby county jail, will not be hung on the 16th as appointed, but will obtain stay of proceedings.

Jennie Stanley, who claimed to be an adopted daughter of Bishop Jess R. Peck, died in Truckee Monday morning of cold, exposure and intemperance.

Dennis Leahy and Kennedy, winners of the Virginia, (Nev.) match, are to have a twenty-four-hour-go-as-you-please match at Valjeo, beginning at ten o'clock to-night.

Large cakes of ice are reported floating down the Colorado. Such an occurrence has never before been known, and the Yuma Indians are scared half out of their wits by such a phenomenon.

New Variety of Corn.

From the Record-Union.

We have been shown by N. L. Drew, of this city, a sample of Cozco corn grown in South America about 1000 miles from the sea coast of Peru, and transported to the coast at an expense of fifty cents per pound. It is reported that it sometimes produces 300 bushels to the acre, and the ears are of immense size. The grains are very large, but light and soft. The interior is very white, containing a large proportion of starch, and would make excellent flour. Mr. Drew proposed to test its adaptability for cultivation in this country, and will distribute samples to those who desire it. If it will grow in this climate and retain its fairinaceous character, it will be a valuable introduction.

Why it pays business men to advertise is well explained by the New York Sun: "They get the benefit of the power of advertisement, one of the greatest powers possessed by a newspaper, and by frequent repetition can fix their names and their business in the memories of the public."

Hon. John M. Broadhead, lately lying dangerously ill in the Broadhead mansion at South Market, N. H., seems to have retained his sense of humor in the very presence of the grim messenger of death. "One day," says the South Market Advertiser, "when he was very low, and Dr. Varnay had announced that he would not live more than forty-eight hours, he apologized to his brother-in-law, Mr. Pike, to whom he is on a visit, saying: 'Excuse me for being so impolite as to leave my corpse in your house, for I promise not to repeat the offense,' and softly added, 'a grave joke.'

The Carson Tribune says: "By the election of Garfield the U. S. Senate gains a member of giant intellect, as well as one of the readiest debaters in the land. He is head and ears over the demagogues Thurman, Tracy and Douglass."

John B. Owen has finished his engagement in San Francisco. He ought to keep him here as he goes east. He is one of the best comedians of the stage.

"Endress your partner" is what an excited prompter shrieked out at Canby, Thursday night at the beginning of a quadrille. His authority was questioned.

A Novel Call.

From the Modoc Independent.
